WWA D-311  
P.O. Box 900, 1380 DA Weesp  
The Netherlands  
e-mail: Rob.Aerts@Solvay.com

Dr. Rob J. Aerts, M.A., worked as a research scientist in molecular biology, biochemistry, cell biology, protein engineering and biotechnology at various research institutions and universities in the Netherlands, Canada, Switzerland, England, New Zealand and Germany. He qualified both as European and Dutch patent attorney, and currently he is employed as principal patent attorney with Solvay Pharmaceuticals B.V. in Weesp, the Netherlands.

His main academic interest is the way in which patent law in Europe is currently governed by two different legal systems. Dr. Aerts has published about this topic in the journals *European Intellectual Property Review* and *International Review of Intellectual Property and Competition Law*. He regularly presents seminars at international conferences, and he supervises students working on European patent law-related projects at The Hague University of Applied Sciences in The Netherlands.
